

Program: Drainconnect v.1.0

By: Andrea Andreetti

Date: October 2008

What is DrainConnect ? (Drain Connection)

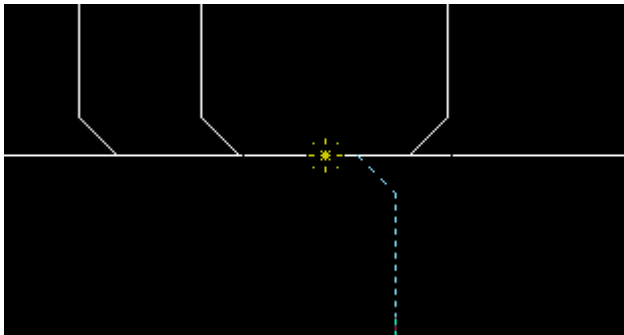

DrainConnect allows the user to draw drain connection in 2 clicks.

How does it work ?

Load Drainconnect lisp file from the AutoCAD "_appload" command.

Run Drainconnect and select a ductwork line. Once the choice is made, Select the Drain location on moving mouse.

Note : the selected point will be represented by an yellow asterix and determine the fluide direction.

Enjoy !
